BACKGROUND: Having approved the Goals and Objectives for the Sustainable Transportation Plan on November 10, 2020, the project team will now present an overview of the proposed decision-making framework, which will use the goals and objectives to prioritize projects and programs.

The project team is looking for the City Council to identify any "fatal flaws" in the decision-making framework before taking it to the project task force for a more detailed analysis and final recommendation to the Council, which is anticipated in January of 2021.
