

**TYPE:** Resolution  
**SUBMITTED BY:** Brad Hargett  
**DEPARTMENT:** Public Works  
**DATE:** 06/16/2026

**DESCRIPTION: Public Works:** Resolution Authorizing Execution of a Contract with Corrective Asphalt Materials, LLC of Sugar Grove, IL for the 2026 Pavement Preventative Maintenance Program in the amount of \$112,174.40

**COMMITTEE ACTION:** N/A  
**DATE:**

**BACKGROUND:**

Preventative maintenance is an essential part to prolonging the life of a roadway, which delays the need for costlier repairs in the future. Part of that maintenance process is the use of an asphalt rejuvenator on roads that have been recently paved (within 2-3 years). This treatment refreshes the surface layer of pavement to bring it back to a state of freshly paved asphalt. This helps to delay breakdown of the asphalt, which leads to costlier repairs such as resurfacing or reconstruction.

Reclamite is an emulsion made up of specific petroleum oils and resins. It is formulated to suspend the life cycle of asphalt pavement by restoring and preserving the asphalt’s surface. When Reclamite combines with asphalt pavement, it is able to restore the pavement’s original properties hence extending the life of the pavement. By extending the life cycle of the asphalt pavement, we are ultimately delaying other treatments and most importantly keeping a “good” road looking “good.”

This Village semi-annual program utilized this product in 2012, 2014, 2016, 2018, 2020, 2022, and 2024. The Village has paved many streets since 2024 as part of the Capital Investment projects, which would benefit from an application of Reclamite.

<b>Company</b>	<b>BID TOTAL</b>
Corrective Asphalt Materials, LLC Sugar Grove, IL	\$ 112,174.40 (\$1.30/Sy)

**KEY ISSUES:**

The Village of Winnetka led a Municipal Partnering Initiative (MPI) Joint Bid for Pavement Rejuvenation in February of 2024. An MPI allows communities to join forces to procure a wide range of public works and construction services, by taking smaller amounts of work and combining them into larger projects. These larger projects typically receive better pricing. The Village has been part of numerous MPI groups in the six-county area in the past, including sanitary sewer lining, sidewalk cutting, and pavement patching.

Reclamite is sold through regional distributor and thus is considered a sole source item. Corrective Asphalt Materials (CAM) LLC is the local distributor of the product. CAM has provided a quote based on their 2024 MPI Bid price of \$1.30 per square yard. The total pavement area for the 2026 Program was calculated at 86,288 square yards for a total cost of \$114,174.40.

**ALTERNATIVES:** Discretion of the Village Board

**BUDGET IMPACT:** In FY2026, \$75,000 is budgeted for this project in the Capital Improvements Fund (account # 31080810-596000-26803). Additional funding is available in the CIP account 31080810-596000 to cover the additional costs above the budgeted amount.

**ACTION REQUIRED:** Approval of a Resolution Authorizing Execution of a Contract with Corrective Asphalt Materials, LLC of Sugar Grove, IL for the 2026 Pavement Preventative Maintenance Program in the amount of \$112,174.40.
