

City of Boynton Beach Agenda Item Request Form

Meeting Date: 12/ 2/2025

Proposed Resolution No. R25-313- Approve an Interlocal Agreement (ILA) between the City of Delray Beach and the City of Boynton Beach to share the Construction Cost to rehabilitate Gulfstream Boulevard (AKA SE 36th Ave). Proposed Resolution No. R25-314- Approve a Budget Amendment for Fiscal Year 2025-2026, amending the Capital Appropriation for the Gulfstream Boulevard Construction project.

Requested Action:

Staff recommends approval of Proposed Resolution No. R25-313 and Resolution No. R25-314.

Explanation of Request:

On May 5, 2020, (and amended by First Amendment on February 25, 2021) the City entered an Interlocal Agreement (ILA) with the City of Delray Beach to share the design cost for the rehabilitation of Gulfstream Boulevard (a/k/a SE 36th Ave). Gulfstream Boulevard is the road at the end of the City limits, with the South-half of the Right-of-Way belonging to the City of Delray Beach and the North-half of the Right-of-Way belonging to the City of Boynton Beach. The design has been completed, and the project is moving forward to construction. The new ILA (attachment 1) will share the construction cost of the streetscape portion of the rehabilitation design project between the City of Delray Beach and City of Boynton Beach, based off which City the improvements are in, per the completed Design plans (Attachment 2). The Design plans also include the installation of a new Watermain, located all within the City of Boynton Beach's portion of Gulfstream Boulevard. The Watermain will be entirely funded by the City of Boynton Beach.

The scope of work for costs that are to be shared between the municipalities consists of roadway widening for an existing two-lane road with milling and resurfacing; a new 10-foot-wide concrete shared-use path on Boynton Beach's side, and an 8-foot-wide concrete shared-use path on Delray Beach's side; landscape removals and new plantings; irrigation; reconstruction of medians; 24-inch drainage pipe inclusive of drainage structures and 6-foot-wide exfiltration trenches; water service replacement; swale re-grading; lighting; and incidental construction of curbs, sidewalks, driveways, sod, pavement markings, signage, and utility reconstruction ("Streetscape Project").

The agreement between the City of Delray Beach and the City of Boynton Beach specifies that the maximum construction cost expense for the Streetscape Project is \$3,000,000, or \$1,500,000 for each municipality. This Agreement solely pertains to the construction expenses. Attachment 3 is the Cost Estimate as prepared by the Engineering consultant who produced the plans.

How will this affect city programs or services?

This project will restore the roadway to a new condition and provide another 15-20 years of useful life, as well as provide water to the town of Gulfstream. Facilities/Street Maintenance will no longer need to continually maintain the road by performing street repairs.

Budgeted Item: Yes

Account Line Item and Description: Adjusted City of Boynton Beach Utilities - 404-5000-533-65.02 - WT2414 - \$4,840,400

Fiscal Impact:

Approved in the current Fiscal Year 2025/2026 Budget

Budget Amendment for Fiscal Year 2025-2026, amending the 404 R&R Water account, for the Reimbursements from the City of Delray Beach, in the amount of \$1,500,000 (as per the agreement of the ILA), for the Gulfstream Boulevard project. This will bring the 404 R&R Water Account from a budgeted \$3,340,400 to \$4,840,400 (See Attachment 4).

The City of Boynton Beach Public Works Department will reimburse the City of Boynton Beach Utilities Department after the construction for this project is complete, for their portion of cost of construction, in the Fiscal year after construction is complete.
