

City of Boynton Beach Agenda Item Request Form

Meeting Date: 12/ 2/2025

Proposed Resolution No. R25-320- Award Invitation to Bid No. 25-093B for the I-95 & Boynton Beach Boulevard Interchange Utility Relocation Project to Johnson-Davis, Inc., and approve an Agreement between the City and Johnson-Davis, Inc. in the amount of \$2,140,275 with an additional 10% contingency in the amount of \$214,027.50 for staff-authorized change orders to address unforeseen conditions, bringing the total not-to-exceed contract and purchase order amount to \$2,354,302.50.

Requested Action: Staff recommends approval of Proposed Resolution No. R25-320.

Explanation of Request:

The Florida Department of Transportation (FDOT) has already begun construction on **Project No. 435804-1-52-01**, which focuses on improvements to the I-95 and Boynton Beach Boulevard interchange. To accommodate FDOT's design within the interchange right-of-way, the City is required to relocate or adjust its utilities at several locations where conflicts have been identified.

The original Utility Work Agreement (UWA) for the SR-9/I-95 at SR-804 (Boynton Beach Boulevard) Interchange Project (FDOT Project FPID 435804-1-56-03) was executed by the Florida Department of Transportation and the City on November 19, 2024, following approval via City Commission Item R24-284. A Supplemental Utility Work Agreement is now scheduled for consideration at the December 2, 2025, City Commission meeting under proposed Resolution No. R25-292.

On October 1, 2025, the Procurement Services Division, in coordination with the Utilities Department, issued Invitation to Bid (ITB) No. 25-039B for this project. A non-mandatory pre-bid conference was held on October 9, 2025. The solicitation closed on November 4, 2025, with four (4) bid submissions received.

Following a comprehensive evaluation, and based on the recommendation of both the Engineer of Record and the Utilities Department, Johnson-Davis, Inc. was identified as the lowest responsive and responsible bidder. Accordingly, City staff recommend awarding the contract to Johnson-Davis, Inc. in the amount of \$2,140,275, with an additional 10% contingency of \$214,027.50 to address potential unforeseen conditions, for a total not-to-

exceed amount of \$2,354,302.50.

How will this affect city programs or services?

The necessary relocation and adjustment of several critical City-owned water mains, gravity sewer mains, and sanitary force mains, among other infrastructure, combined with planned intermittent shutdowns of municipal lift stations, will directly impact the continuity of several essential City of Boynton Beach programs and services. These complex utility interruptions pose an unavoidable risk of service disruptions for our residents. The Utilities Department will schedule an immediate and comprehensive coordination meeting to thoroughly review the construction phasing, identify specific mitigation strategies for the lift station shutdowns, and establish a clear communication protocol to minimize the overall operational impact.

Budgeted Item: Yes

Account Line Item and Description:

Project UC2501 - Account 403.5000.533.65.02 - Water R&R - \$2,750,000

Project UC2501 - Account 403.5000.535.65.04 - Sewer R&R - \$2,750,000

Fiscal Impact:

The City anticipates a positive fiscal impact from this project because the Florida Department of Transportation (FDOT) is responsible for providing the necessary reimbursement.
