

City of Boynton Beach Agenda Item Request Form

Meeting Date: 02/ 3/2026

Proposed Resolution No. R26-021- Approving a renewal agreement and annual service and expenditure with Motorola, Inc. for the continued maintenance and repair of the City's P25 radio telecommunications systems as a sole-source vendor with an expenditure not to exceed \$200,000 annually for the next five years.

Requested Action: Staff recommends approval of Proposed Resolution No. R26-021.

Explanation of Request: The City maintains a radio telecommunications system that provides radio communications to the Police Department, Fire Department, and other local government entities. The Motorola company manufactured and installed our current system, which consists of computer consoles, portable radios, antennas, and operational readiness. The City has a long-standing relationship with Motorola, and this request is for an annual maintenance agreement for Motorola to provide monitoring and diagnostic services, along with the repair or replacement of any defects in the infrastructure, computer equipment, and radios, and any required upgrades. While Motorola may subcontract radio maintenance to an authorized Motorola subcontractor, the communications infrastructure (consoles, repeaters, etc.) is serviced and maintained directly by Motorola. Authorized Motorola subcontractors will not contract directly with entities, as their work orders are routed through Motorola.

The annual expenditure amount shall not exceed \$200K annually over the next five years. This purchase is being made pursuant to the Sole Source Procurement Exemption outlined in Section X, Alternatives to Formal Sealed Bids, of the procurement policy. This section permits Sole Source Services and Purchases when it is determined that only one viable source is available. Such circumstances may include, but are not limited to, repairs or additions from the original equipment manufacturer, exclusive regional suppliers, franchised or licensed distributors, or proprietary items. The vendor has submitted the required documentation to the City, and the Procurement Division has affirmed that the documentation for this purchase meets the Sole Source Procurement Exemption criteria.

How will this affect city programs or services? This service agreement ensures that public safety and relevant local government entities can maintain radio communications of the Motorola radio system, which is critical to the safety of City personnel and the provision of services to the community.

Budgeted Item: Yes

Account Line Item and Description: 001-2112-521-46-24 - Radio Repairs

Fiscal Impact: Fiscal Impact for FY26 is \$123,436.01
Future Impact shall not exceed \$200K Annually.
