

City of Boynton Beach Agenda Item Request Form

Meeting Date: 06/ 2/2026

Proposed Resolution No. R26-094- Rescinding Resolution No. R26-072, which approved a Piggyback Agreement with American Traffic Solutions, Inc. d/b/a Verra Mobility for the Red Light Camera Program; separately directing the Procurement Director to issue a 30-day notice of termination for the convenience of the School Zone Speed Camera Program Contract with Verra Mobility approved pursuant to Resolution No. R26-022; and Providing an Effective Date.

Requested Action:

Staff recommends the approval of Proposed Resolution R26-094.

Explanation of Request: The City previously operated two separate camera enforcement programs administered by American Traffic Solutions, Inc. d/b/a Verra Mobility: (1) a red light camera program under a Traffic Safety Camera Program Agreement, and (2) a school zone speed safety camera program under a separate agreement approved pursuant to Resolution No. R26-022.

The Traffic Safety Camera Program Agreement expired on May 15, 2026. Although the City Commission approved a piggyback agreement for renewal pursuant to Resolution No. R26-072, the agreement was not timely executed by Verra Mobility, and the program is not currently operational. The City is not pursuing renewal with Verra Mobility. Accordingly, this item seeks Commission approval to rescind Resolution No. R26-072.

The School Zone Speed Safety Camera Agreement remains in effect. Section 15.1(iii) of that agreement authorizes the City to terminate the contract without cause upon 30 days' written notice to the vendor. This item seeks Commission approval to exercise that termination provision and discontinue the City's relationship with Verra Mobility for school zone speed camera services. The Procurement Director will issue the required written notice upon Commission approval. The program will wind down consistent with the contract's 90-day event-processing period following the termination notice.

The City is separately seeking Commission approval on this agenda to continue both the red light camera and school zone speed camera programs through a new agreement with a different vendor, which is under a separate item.

How will this affect city programs or services? The Traffic Safety Camera Program agreement expired on May 15, 2026, and is not currently operational. The School Zone Speed

Safety Camera systems will cease following the 30-day termination period and subsequent 90-day processing wind-down. No further automated citations will be generated until a new vendor goes live. This has minimal impact on City programs/services at this time, as the downtime will occur during summer break.

Budgeted Item: Yes

Account Line Item and Description: N/A

Fiscal Impact: Monthly per-camera fees may continue for up to 90 days for processing existing events for the School Zone Speed Safety Camera systems.
