

City of Boynton Beach Agenda Item Request Form

Meeting Date: 06/ 3/2025

Proposed Resolution No. R25-154- Approve First Amendment to Piggyback Agreement between the City and Extreme Networks, Inc. for the purchase of network equipment, network switch maintenance, and licensing, increasing the annual not-to-exceed expenditure amount from \$200,000 to \$600,000.

Requested Action: Staff recommends approval of Proposed Resolution No. R25-154.

Explanation of Request: Original Agreement Term: October 1, 2019 – September 30, 2026

This piggyback agreement will allow the City to purchase network equipment, network equipment maintenance, and networking software as needed by multiple City departments. The City of Boynton Beach replaces network equipment after the current equipment reaches the end-of-life set by the manufacturer. The network equipment requires firmware updates and licensing to ensure they are secure and will work with new hardware and software platforms. The network switch maintenance provides access to these firmware upgrades, advanced hardware replacement, and technical support.

The Innovation & Technology Solutions Department requests approval to increase annual spending from \$200,000 to \$600,000 using the piggyback of the Extreme Networks, Inc. contract 43220000-NASPO-19ACS approved by Commission on October 15, 2024, by Resolution No. R24-262. The additional funds are needed to implement a network infrastructure replacement cycle of 3 years, replacing aging network equipment, licensing, and professional services.

How will this affect city programs or services? The increase will allow the replacement of network equipment and licensing on a 3-year replacement cycle.

Budgeted Item: Yes

Account Line Item and Description: Multiple accounts will be used, and the amount will vary by department.

Fiscal Impact: Funding was approved and is available in the multiple department accounts for fiscal year 2024/2025.
