

City of Boynton Beach Agenda Item Request Form

Meeting Date: 04/21/2026

Proposed Resolution No. R26-063- Approving the purchase of 23 Wi-Fi hotspot data plans from Educational Broadband Service Agency LLC d/b/a Mobile Beacon in the amount of \$2,760 and approving the vendor contract and addendum terms and conditions.

Requested Action: Staff recommends approval of Proposed Resolution No. R26-063.

Explanation of Request:

The Library is requesting approval to purchase Wi-Fi data plans for twenty-three (23) circulating hotspot devices. These hotspots provide internet access to Boynton Beach City Library cardholders who do not have reliable connectivity at home.

This purchase falls under the single quote threshold of \$20,000 and follows the procurement policy.

This contract is on a vendor form, which contains non-standard terms and conditions detailed in the attached Disclosure Matrix. Notably, the Agreement requires the City to indemnify the Vendor and is governed by Rhode Island law. These terms can only be approved by the City Commission.

How will this affect city programs or services?

By supporting hotspot data service, the Library enables library cardholders to apply for jobs, complete schoolwork, attend virtual classes, and access essential online services such as telehealth and government resources. This investment expands equitable access to technology, supports digital inclusion, and extends the Library's services beyond its physical location.

Budgeted Item: Yes

Account Line Item and Description: 001-2610-571.46-91

Fiscal Impact: This expense is already included as a budgeted line item in the Library's

operating budget, supporting the ongoing cost of Wi-Fi data service for circulating hotspot devices. The total annual fiscal impact is \$2,760.
