

City of Boynton Beach Agenda Item Request Form

Meeting Date: 05/20/2025

Proposed Resolution No. R25-132- Approve the lease buyout of thirty (30) 2021 RXV Elite Golf Cars in the net amount of \$37,754.40; and purchase ninety (90) new carts for \$220,073.15 utilizing the National OMNIA Partners Cooperative Contract No. R210201 and issue a purchase order to EZGO Division of Textron, Inc.

Requested Action: Staff recommends approval of Proposed Resolution No. R25-132.

Explanation of Request:

Approve the lease buyout of Thirty (30) 2021 RXV Elite Golf Cars in the net amount of \$37,754.40; utilizing the National OMNIA Partners Cooperative Contract No. R210201 from EZGO Division of Textron, Inc. for the purchase of ninety (90) units of Pace GPS Technology for each golf cart in the amount of \$130,320.00, six Utility Carts in the amount of \$60,376.50, a Range Picker Cart with cage in the amount of \$12,949.75 and a Shuttle 8 Elite 8-person transport vehicle in the amount of \$16,426.90. The grand total amount of purchases equals \$257,827.55, and the contract expires on September 30, 2025.

To upgrade our Golf Cart fleet with 30 off-lease Golf Carts. Install 90 units of Pace GPS Software on the 90 new golf carts and utilize the addition of screens for improved our overall product. Pace GPS has been utilized at The Links for three years and it has dramatically helped care of the golf course, enhances customer experience and assists with Pace of Play.

Staff at The Links Golf Course has evaluated its current utility fleet, Range Picker vehicle and the need for a transport vehicle for instructional programs and determined maintenance issues have also dramatically increased over the last year. Due to increased rounds, there is more wear and tear on the golf course as well as our driving range is busier. More utility vehicles must be used to care for the golf course. Old unreliable utility vehicles are currently being used on a daily basis requiring additional service and maintenance. Staff has determined that it is in the City's best interest to replace these units with new vehicles under a 5-year factory warranty, as opposed to continually repairing out of warranty carts. In order to run a top-quality Golf Course, the most appropriate action would be to replace these vehicles and purchase them outright to save interest costs and eliminate annual operational expenses.

The following is a summary of the requested purchases vs leasing.

Total Purchase Price of 30 RXV Elite Golf Carts

Total Net Purchase Price: \$37,754.40, a savings of **\$4,475** over lease pricing

Total Purchase Price of Pace GPS Technology

90 units @ \$1,448 per unit = \$130,320, a savings of **\$20,121** over lease pricing

Total Purchase Price of Utility Cart Package of Utility Carts

4 gas Utility Carts @ \$8,620 per cart = \$34,480, a savings of **\$15,296** over lease pricing

2 electric Utility Pro @12,949.75 per cart= \$25,899.50, a savings of **\$ 11,493** over lease

Total Purchase Price of Range Picker Cart with Cage

\$12,949, a savings of **\$5,746** over lease pricing

Total Purchase Price of 8-person Transportation Vehicle

\$16,427, a **\$8,611** savings over lease pricing

This purchase will be made piggybacking on Omnia Contract # R210201. Piggybacking at the City of Boynton Beach is an important strategy for maximizing efficiency and cost savings in procurement processes. By leveraging contracts and agreements that have already been competitively bid and awarded by other governmental entities, the City can avoid the lengthy and resource-intensive process of issuing its own bids. This allows for faster acquisition of goods and services, ensuring that City projects and operations continue smoothly without unnecessary delays. Additionally, piggybacking promotes fiscal responsibility by enabling the city to take advantage of favorable pricing and terms that have already been negotiated, ultimately benefiting taxpayers. It also fosters collaboration among local governments, enhancing resource sharing and creating opportunities for better service delivery to the community.

How will this affect city programs or services?

Enhancing the utility vehicle inventory will provide new vehicles for our Golf Course Maintenance team to use, enhancing the overall product on the Golf Course and reducing maintenance time and repair costs that the Golf Course has experienced.

The GPS technology allows us to Geo-fence the golf course to restrict cart traffic in places that would be detrimental to the care and maintenance. It also allows us to track all golf carts in case of an emergency or accidents. The GPS technology assists in rotating the carts for best performance, charging levels and diagnosing problems before they become expensive problems.

Account Line Item and Description: Transfer funds from Golf Fund Balance account 411-0000-389-92-00 to Operating Equipment account 411-2911-572-52-20.

Fiscal Impact: The amount of \$258,000 will be transferred from Golf Fund Balance account 411-0000-389-92-00 to Operating Equipment account 411-2911-572-52-20 to cover the total expenses of \$257,827.55.
