

City of Boynton Beach Agenda Item Request Form

Meeting Date: 04/ 7/2026

Proposed Resolution No. R26-052- Authorizing the Mayor to execute the Participation Documents and Release Related to the National Opioid Settlement with the Six Remnant Defendants.

Requested Action: Staff recommends approval of Proposed Resolution No. R26-052.

Explanation of Request:

The City of Boynton Beach previously elected to participate in the national opioid settlements negotiated with several manufacturers, distributors, and pharmacies to resolve claims related to the opioid crisis. Additional settlements have now been reached with the remaining defendants, commonly referred to as the "Six Remnant Defendants."

Participation in these settlements requires local governmental entities to execute participation forms and releases confirming their agreement to the settlement terms. The National Opioid Settlements Notice and Claims Administrator has provided formal notice that entities wishing to participate must execute the required documentation through the Rubris settlement administration platform.

Approval of this item will authorize the Mayor to execute the Participation Form, Release, and any related settlement documentation necessary for the City to participate in these settlements.

Participation will allow the City to remain eligible to receive its allocated share of settlement funds under the terms established through the national opioid settlement framework and the State of Florida's allocation agreement.

How will this affect city programs or services?

This action will not adversely affect City programs or services. Participation ensures the City remains eligible to receive settlement funds designated for opioid abatement activities, which may support programs related to substance abuse prevention, treatment, recovery, and

community health initiatives.

Account Line Item and Description: N/A

Fiscal Impact: Participation allows the City to receive its allocated share of settlement funds from the Six Remnant Defendants pursuant to the national opioid settlement allocation formula. The exact amount to be received by the City will depend on final settlement distributions.
