Explanation of Request:

The Bob Borovy Student Citizen of the Year Award was created in the year 2000 to recognize a graduating high school senior who best epitomizes the spirit of volunteerism and giving back to the community as exemplified by the late Bob Borovy, a United States Veteran and former advisory board member who was an active citizen of the community for many years.

How will this affect city programs or services?

In order to be eligible, applicants must be a graduating high school senior who resides in Boynton Beach, submit three letters of recommendation, complete an essay and provide documentation of their volunteer work. The winner is chosen by a panel of judges, including the previous year's award recipient.

Fiscal Impact:

The award is sponsored by the Education and Youth Advisory Board and is funded through donations.
