

City of Boynton Beach Agenda Item Request Form

Meeting Date: 05/20/2025

Proposed Resolution No. R25-133- Approving a Third Amendment to the Master Services Purchase Agreement with AXON Enterprise Incorporated to modify the existing purchase agreement in order to procure equipment and services needed for the Police Department in an amount of \$8,756,637.51 over a 120-month term/10 years.

Requested Action: Staff recommends approval of Proposed Resolution No. R25-133.

Explanation of Request: The Police Department needs to increase the number of in-car video camera systems (Axon Fleet-4 additional camera systems), maintain our current body-worn camera (BWC) allocation, and transition from Taser 7 to the new Taser 10 platform. The approval of this request will allow officers to obtain the necessary equipment needed to perform their required duties, maintain consistency, and enhance our less lethal capabilities. In-car video and BWC provide documentation of police interaction. The taser is a less-than-lethal device that reduces the need for additional force in some cases. All of these devices have advanced features and provide a record for later audits and informational purposes.

This purchase is being made pursuant to the Sole Source Procurement Exemption outlined in Section X, Alternatives to Formal Sealed Bids, of the procurement policy. This section permits sole-source services and purchases when it is determined that only one viable source is available. Such circumstances may include, but are not limited to, repairs or additions from the original equipment manufacturer, exclusive regional suppliers, franchised or licensed distributors, or proprietary items. The vendor has submitted the required documentation to the City, and the Procurement Division has affirmed that the documentation for this purchase meets the Sole Source Procurement Exemption criteria.

How will this affect city programs or services? The integration of Axon technology, such as body cameras, in-car video, taser and real-time data analytics, is poised to significantly enhance city programs and services for new officers in the field. These technological advancements offer improved transparency and accountability through high-definition video recording, which can be invaluable in training new officers by providing detailed insights into real-world scenarios. Real-time data analytics can streamline incident reporting and resource allocation, ensuring that officers can respond more efficiently to emergencies. The cost for equipment and services is \$8,756,637.51 over a 120-month/10-year term.

Budgeted Item: Yes

Account Line Item and Description:

Funding has been approved in FY24/25 and budgeted in FY25/26 from:

Other Contractual Services: 001-2112-521-49-17

This is a sole source purchase.

Fiscal Impact:

FY 25-26 October 2025 \$705,237.51

FY 26-27 October 2026 \$805,000.00

FY 27-28 October 2027 \$905,800.00

FY 28-29 October 2028 \$905,800.00

FY 29-30 October 2029 \$905,800.00

FY 30-31 October 2030 \$905,800.00

FY 31-32 October 2031 \$905,800.00

FY 32-33 October 2032 \$905,800.00

FY 33-34 October 2033 \$905,800.00

FY 34-35 October 2034 \$905,800.00

Total cost for 120-month term contract: \$8,756,637.51

It should be highlighted that the Police Department originally was quoted \$12,161,741.00 for the 120-month term contract. After negotiation, the agreed total cost was \$8,756,637.51, representing a cost saving/reduction of \$3,405,103.49.
