

City of Boynton Beach Agenda Item Request Form

Meeting Date: 07/15/2025

Proposed Resolution No. R25-182- Approve the issuance of a Purchase Order to Zoll Medical Corporation for the purchase of public safety medical supplies for one year with an annual expenditure of \$90,000.

Requested Action: Staff recommends approval of Proposed Resolution No. R25-182.

Explanation of Request: ZOLL Medical Corporation is a recognized leader in the development and manufacturing of medical devices and software solutions used in emergency care settings. The company specializes in products that support advanced resuscitation, defibrillation, cardiac monitoring, and data management—tools that are critical for first responders, especially in fire and rescue services. ZOLL equipment is widely used by fire departments across the nation due to its reliability, innovation, and integration with EMS protocols.

Allowing the Warehouse Division to directly procure equipment and supplies from ZOLL Medical Corporation is vital to ensuring continuity of care, compatibility with existing systems, and rapid deployment in emergency situations.

NPPGov is a national cooperative procurement organization offering publicly solicited contracts to government entities nationwide. Contracts are created through a public solicitation and award process by Lead Public Agencies. NPPGov, through the League of Oregon Cities, has a contract with ZOLL that expires June 8, 2026. The City intends to utilize this contract as the basis for pricing to purchase defib pads, electrodes, EKG paper, and other related medical supplies for Fire Emergency Services. Per the terms of the contract, the vendor provides a percentage discount on items sold. This discount will be verified by the Warehouse both prior to placing an order and upon receipt of the invoice.

This purchase would be procured under the Piggyback exemption of the procurement code. Piggyback contracts significantly benefit the City of Boynton Beach by providing a cost-effective and efficient way to procure goods and services. By leveraging agreements already in place with other governmental entities, the City can avoid the time-consuming and expensive process of issuing its own competitive bids. This allows quicker access to needed resources while often securing more favorable pricing due to the economies of scale achieved through larger contracts. Additionally, piggybacking ensures the City can tap into pre-vetted vendors who have already been thoroughly evaluated, reducing administrative burdens and risks associated with vendor selection. Ultimately, piggyback contracts streamline procurement, save taxpayer money, and improve the efficiency of City operations.

How will this affect city programs or services? This will enable the purchase of defib pads, electrodes and EKG paper for the use of Fire and Police emergency services.

Budgeted Item: Yes

Account Line Item and Description: 502-0000-141-0100 Inventory Account

Fiscal Impact: This is a budgeted item.
