

Memorandum

REPORT TO: Transportation Board

FROM: Nicholas Ross - Director of Transportation and Engineering

SUBJECT: College St 8th to 11th Renovation Work Session

MEETING DATE: September 24, 2025

AGENDA ITEM TYPE: Citizen Advisory Board/Commission

RECOMMENDATION: Receive presentation and provide staff with feedback on design choices.

STRATEGIC PLAN: 1.1 Outreach: Continue to strengthen and innovate in how we deliver information to the community and our partners.

BACKGROUND: The city of Bozeman has appropriated funding in the FY26 Operating Budget for a renovation of College Street from 8th to 11th as approved in the FY26-30 Capital Improvement Plan.

The consultant team of TD&H Engineering and Kittelson have been hired to lead design of the project. Tasks completed to date include survey, geotechnical investigation, and traffic study with conceptual alternatives.

City staff will now lead public engagement with the intent of confirming the scope of improvements for final design. The city intends to bid the project in late-winter 2026 with construction following the end of the Montana State University school year.

Staff will provide a project presentation, results of the community meeting scheduled for 9/22, and ask the Board for input on policy issues of driveway consolidation and parking supply as well as design elements regarding bicycle facility type, pedestrian safety, and intersection control.

The Board is asked to review the [FY26-30 CIP](#) and project [Engage page](#) prior to the meeting.

UNRESOLVED ISSUES: None

ALTERNATIVES: As suggested by the board

FISCAL EFFECTS: None
