

# Memorandum

**REPORT TO:** Community Development Board

**FROM:** Erin George, Community Development Director  
Jon Henderson, Assistant City Manager

**SUBJECT:** Community Development Building Data Dashboard Overview Presentation

**MEETING DATE:** May 5, 2025

**AGENDA ITEM TYPE:** Plan/Report/Study

**RECOMMENDATION:** N/A

**STRATEGIC PLAN:** 1.1 Outreach: Continue to strengthen and innovate in how we deliver information to the community and our partners.

**BACKGROUND:** The Community Development Department and Strategic Services Department are pleased to present the Building Data Dashboard. Staff are often asked about building permit data, such as how many permits or dwelling units have been approved in a given period of time. This new online resource will provide such data on demand for a time period defined by the user, going back as far as 2020. Creation of this dashboard would not have been possible without the innovation of Strategic Services staff. The dashboard will give more flexible and rapid access to data of interest to the community and will save significant staff time responding to data inquiries in the future. Staff will demonstrate the new dashboard, as well as the existing CD Viewer map at the May 5th meeting.

**UNRESOLVED ISSUES:** None

**ALTERNATIVES:** None

**FISCAL EFFECTS:** None
