Report and presentation on results from the 2026 Community Survey from Polco representatives. (Approximate time: 45 minutes)

GOALS AND OBJECTIVES FOR THE STRATEGIC PLAN FOCUS AREAS:
Innovative and High Performing Organizations

SUMMARY

PROJECT DESCRIPTION:
The National Community Survey reports on the "livability" of Buckeye. The report provides opinions from a sample of Buckeye residents collected from January 20 to March 17, 2026, with a 4 percent margin of error. Residents were randomly selected from a list of all households within the Buckeye municipal boundary. Selected households first received a postcard inviting them to participate in the survey. This was followed up by a letter with instructions, the survey questionnaire and a postage-paid return envelope. All mailing included a web link to respond online. Survey results indicated safety and the economy are important areas for the city to focus their efforts. Results also identified areas of potential opportunity.

BENEFITS:
The goal of the survey is to report on the “livability” of Buckeye. The city has areas for improvement in transportation, education and retail development but also has high remarks for government and economic stability. The survey results indicate safety and the economy are important areas for the city to continue focusing on in the next few years.
