ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
 Council to take action on the Cooperative Contract Purchase Addendum (CCPA) (Contract No. 2025229) between the City of Buckeye, an Arizona municipal corporation, and The Sutphen Corporation, an Ohio corporation, for the purchase and outfit of two heavy-duty rescue pumpers (fire trucks); and authorizing the City Manager to execute and deliver the CCPA on behalf of the City of Buckeye.

SUMMARY

PROJECT DESCRIPTION:

Fleet Management is seeking approval to purchase two (2) Sutphen heavy-duty rescue pumpers, fire trucks.

BENEFITS:

The new pumper truck will provide mechanically sound heavy-duty rescue pumpers for the Fire Department. Dependable fleet equipment is critical to ensure that the Fire Department is able to provide critical services to the residents which can result in life-or-death situations. Without these vehicles, reserve units would be deployed and these units are approaching 20 years old. Equipment progress in their life expectancy, components become prone to increased breakdowns which increases the life cycle maintenance cost while also experiencing increases to the downtime of the vehicle. Older vehicles are more likely to incur major component failures such as engines or transmissions, and these types of failures are not only expensive to the Fleet, but hinders staff's ability to provide services to the residents in a timely manner and fulfilling the mission of the City.
