ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
 Council to take action on Delivery Order No. 12 to the Job Order Contract (No. 2025081), between the City of Buckeye, an Arizona municipal corporation, and M.R. Tanner Development and Construction, an Arizona Limited Liability Company, to construct speed calming devices along Acacia Way, from Thayer Street to Park Meadows Drive; and authorize the City Manager to execute said Delivery Order on behalf of the City of Buckeye.

SUMMARY

PROJECT DESCRIPTION:

On the evaluated roadway, the City of Buckeye Transportation group conducted an evaluation and identified concerns regarding speeding traffic. Based on their findings, they recommended the installation of speed calming chicanes along the roadway to effectively mitigate these speeding issues. The implementation of these chicanes aims to enhance safety for all road users and improve the overall traffic flow within the area.

BENEFITS:

This speed-calming chicane project addresses current speeding concerns while also reducing traffic cut-through associated with the new Vestar Development. By strategically narrowing the roadway, chicanes compel drivers to reduce their speed, creating a safer environment for pedestrians and cyclists. This design not only addresses the urgency of speeding issues but also discourages non-local traffic from using Acacia Way. Furthermore, the calming effect improves the overall quality of the travel experience. Residents will feel more secure navigating their neighborhood, fostering a sense of community within the area while promoting safer and quieter streets.
