SUMMARY

PROJECT DESCRIPTION:

Both Maintenance Improvement Districts (MIDs) and Street Lighting Improvement Districts (SLIDs) provide for the benefit of ensuring that there is a balance of revenue and expenditures to provide for the quality of life for the residents/owners of a particular development without an undue burden upon the existing community. MIDs are established in accordance with Ordinance No. 42-06 and assess the owners within a development for the cost of maintenance of the landscaping along the rights-of-ways within a development MID. MIDs are not activated unless the development's owners should fail or otherwise go out of business, since the owner is charged with that maintenance responsibility; however, the MID is standing by as a protection for the City to ensure that there is adequate revenue to take on the maintenance.
