**ACTION/MOTION:** (This language identifies the formal motion to be made by the Council)  
 Council to ratify the submission of a \$9,454,620 grant application under the Arterial Widening Grant Program to the Maricopa Association of Governments, in the requested grant amount of \$6,618,234, with a match from the City of Buckeye of \$2,836,386; and authorizing and directing the Mayor, City Manager, City Attorney, and City Clerk to carry out the purpose and intent of the grant application.

---

**SUMMARY**

---

**PROJECT DESCRIPTION:**

The City of Buckeye's Program Management Office seeks to widen Miller Road from Broadway Road to Lower Buckeye Road to provide a four-lane roadway (two through-lanes in each direction). Between Broadway Road and Lower Buckeye Road, Miller Road is currently a two-lane roadway (one-through lane in each direction) with a daily traffic volume of approximately 20,164 vehicles. This project would widen the roadway to provide 2-through lanes in each direction, separated by a raised median to ensure safety for all roadway users. If awarded, the grant also supports the addition of a six-foot sidewalk with Americans with Disabilities Act compliant features to either side of Miller Road. This segment of road work is approximately one mile.

**BENEFITS:**

The objective is to expand and enhance the capacity of Miller Road from Broadway Road to Lower Buckeye Road. The road is currently operating at or in excess of its full capacity. Widening the road and adding additional traffic lanes will increase its capacity. All roadway users will benefit from the proposed roadway improvements through the doubled capacity of Miller Road in this section. A raised median and six-foot sidewalk will be constructed to ensure the safety of all roadway users, including individuals with disabilities. The project will support economic competitiveness and growth in the surrounding area by providing increased capacity and access to new developments, such as the area at the southeast quadrant of Miller Road and Interstate 10, and the northeast quadrant of Miller Road and Broadway Road.

**FUTURE ACTION:**

If awarded, the Award Agreement will be presented to Council for acceptance and approval. Any additional Miller Road widening or maintenance needs will come from the General Fund account unless additional grant funding opportunities become available, in which case the Grants team will pursue.

**FINANCIAL IMPACT STATEMENT:**

The Arterial Widening Grant Program portion is \$6,618,234. There is a \$2,836,386 match required for this grant. The total cost is \$9,454,620.

---

**CURRENT FISCAL YEAR TOTAL COST:**

This project is not included in the FY2026 budget, if awarded required matching funds will be drawn from unused appropriations in various funds, which may necessitate a reassessment of budgeted FY2026 capital projects. Depending on timing of the grant award, the project and matching funds may be built into the 5-year CIP. The FY2026 Budget includes \$4.0 million in grant match funds for projects that had been identified as highly likely to be awarded during the fiscal year.
