ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
Council to take action on Resolution No. 89-25 ordering the work as described in Resolution No. 82-24 and forming the City of Buckeye Street Lighting Improvement District No. SLID-2024-005; and ordering the recording and filing of this Resolution.

SUMMARY

PROJECT DESCRIPTION:

Per Resolution No. 89-25, this request is for the creation of a Street Lighting Improvement District (SLID) No. SLID-2024-005 for the SE Corner of Miller and Broadway project and ordering the recording and filing of this Resolution.

BENEFITS:

Both Street Lighting Improvement Districts (SLIDs) and Maintenance Improvement Districts (MIDs) provide for the benefit of ensuring that there is a balance of revenue and expenditures to provide for the quality of life for the residents/owners of a particular development without an undue burden upon the existing community. SLIDs ensure that only owners that benefit from the lighting in their community pay for that service. Having the costs of street lighting within a SLID borne by the owners in a development ensures that the revenue needed to fund these costs is always in place.

FUTURE ACTION:

A budget and further Council action will take place at the beginning of the next fiscal year to implement this District.
