File No.	CIP V-106	**Item No:** D.15
Agenda Section	**CONSENT AGENDA**	
Prepared By	Kate Salihovic, Public Works Support Specialist	
Reviewed By	Charlie Howley	

SUGGESTED ACTION "The Chanhassen City Council approves the replacement purchase for the Bucket Truck."	
Motion Type	Simple Majority Vote of members present
Strategic Priority	Asset Management

SUMMARY

This action is for approval of the replacement of the Streets Bucket Truck (V-106).

BACKGROUND

The existing Bucket Truck (#106) is a 1996 Chevrolet Kodiak C-70, with a 40-foot boom, making it 29 years old. It has ~28,000 miles.

The truck is in excellent condition mechanically; however, the replacement is based more so on a factor of safety aspect of the telescoping bucket and arm. These are steel components with hydraulic hoses that weaken over time. We are also getting a longer boom to better accommodate the intended use and the public services the truck provides.

The replacement is planned as a 2025 Mack MD6 42R SA, with a 50-foot boom.

DISCUSSION

N/A

BUDGET

This purchase is included in the approved 2025-2029 Capital Improvement Plan (CIP).

The CIP budget is $215,000.
State Contract quotes amount to $246,491.78.

The sale of the existing bucket truck is estimated to be at least $30,000, therefore offsetting the over budget amount.

RECOMMENDATION

Staff recommends purchasing the replacement Bucket Truck.
