|---|---|
| **Motion Type** | Simple Majority Vote of members present |
| **Strategic Priority** | Asset Management |

## SUMMARY

Every year, the city must perform pothole patching on our bituminous streets as a maintenance activity in order to provide the high level of service expected by our citizens and other travelers.

## BACKGROUND

N/A

## DISCUSSION

The use of a contractor to supplement the city's self performed pothole patching work started in 2020. It was proven that this process was cost effective and allowed for work to be completed in a timely manner. Northwest Asphalt was the contractor we used previously and they have consistently performed work to our satisfaction.

## BUDGET

The Streets Division of the Public Works Department solicited quotes for a daily rate for performing pothole patching based on completing repairs on the streets, as shown on the attached map. Three quotes were returned, as detailed below. Northwest Asphalt had the lowest quote.

| Contractor | Quote |
|---|---|
| Northwest Asphalt, Inc. | $811.00/Day + $119/Ton of Mix |
| GMH Asphalt Corporation | $1,110.00/Day + $71.10/Ton of Mix |
| Bituminous Roadways, Inc. | $915.00/Day + $120.00/Ton of Mix |

## RECOMMENDATION

Staff recommends awarding the 2025 pothole patching contract to Northwest Asphalt, Inc.
