SUMMARY

Staff discussed with the City Council a petition for the removal of a No Parking designation established with the 2024 Street Improvement Project (24-01) at the January 13, 2025 work session. A copy of that presentation is attached. The Council indicated preference to review this as a city-wide policy rather than a case-by-case scenario and wondered if this has any ties to winter no parking regulations. A map showing the widths of streets in the city is also attached.

A Citizen Action Request (CAR) was received at about the same time concerning the city's current winter parking ordinance.

Staff has combined these two topics into one presentation for City Council discussion and direction at the work session.
