

Park & Recreation Commission Item

March 24, 2026

Item	Park Maintenance Quarterly Update
Item No:	H.4
Agenda Section	<u>REPORTS</u>
Prepared By	Adam Beers, Park Superintendent

SUGGESTED ACTION

SUMMARY

- With another winter season coming to an end, here is a brief update on what park maintenance crews have been working on and what's next.
- Crews have been busy getting ready for spring start-up, prepping tennis nets, ball field bases, aeration equipment, and prepping concession buildings for spring.
- New playground/ splash pad equipment for the new Civic Campus has been delivered and currently being stored at the Lake Ann maintenance shop.
- Crews are preparing to reinstall the skate park equipment as soon as weather allows.
- We are in the process of hiring seasonal staff for the upcoming summer season. Typically, the park maintenance division hires 18- 20 seasonal workers who help assist with daily maintenance tasks, such as trash collection, field preparation, mowing, and weed whipping. The additional labor allows for full-time staff to focus on bigger maintenance projects.
- Zack Conway was hired as the newest park operator for the park maintenance division. Welcome Zack!
- The park maintenance team is looking forward to a great 2026 season and look forward to seeing all of you in the park system!
