

Park & Recreation Commission Item

May 26, 2026

Item	Recommend Purchase for Playground Equipment Replacement for Stone Creek Park
Item No:	G.3
Agenda Section	<u>GENERAL BUSINESS</u>
Prepared By	Jerry Ruegemer, Park and Recreation Director

SUGGESTED ACTION

"The Chanhassen Park and Recreation Commission recommends approval to the Chanhassen City Council for the 2026 Park Playground Equipment Replacement for Stone Creek Park (*name vendor selected and proposal amount*)

SUMMARY

BACKGROUND

This year's Park Renovation Fund contains \$110,000 for a variety of work to be completed as a part of the city's priorities. The \$110,000 budget has been distributed between Stone Creek and Carver Beach Park for the purchase and installation of new playground equipment, engineered wood fiber, and associated restoration costs at Stone Creek and supplemental playground equipment at Carver Beach Park. For Stone Creek, five playground vendors were selected to participate in the RFP process providing playground equipment designs. Vendors were selected based on past performance and equipment quality. Four vendors elected to submit proposals for consideration.

Postcards were sent to both the Stone Creek and Carver Beach neighborhoods informing them of the open houses on Tuesday, May 26. An online option was available for the Stone Creek residents to vote on a preferred playground design prior to the meeting if they couldn't make the open house. Results will be made available during the May 26 meeting. The Carver Beach open house will be more interactive with the playground vendor present working through options with neighbors present.

DISCUSSION

After the conclusion of the two open houses the regular commission will begin. The commission will

recap and review the playground concepts and the final vote tally from the open house and from the online votes for Stone Creek Park. The Carver Beach Park neighbors will have a chance to review options presented and hopefully will decide that evening on their preferred choice. This process is more fluid and additional time may be needed to work through options which is fine due to more time flexibility.
