

**SUBJECT:**

**Vehicle Equipment Purchase for Fire &  
Emergency Services.**

**MEETING DATE:**

December 20, 2022

**SUBMITTED BY:**

Amanda Postelle

---

**SUGGESTED ACTION:**

Consider approving the following purchases to outfit recently purchased Fire Department vehicles: ProLogic in the amount of \$76,275.22 for lighting packages on seven (7) Dodge Rams; Utility Associates in the amount of \$55,680.00 for communications (internet) hardware bundles on new Fire & EMS vehicles and engines, and FireLine in the amount of \$63,438.00 to install camper tops and slide systems in up to (6) six Dodge Rams - total cost is \$195,393.22.

---

**FACTS AND ISSUES:**

The Board approved the purchase of seven (7) Dodge Ram 2500s at the November 17, 2022 meeting. These vehicles need to be outfitted with lights, internet, radios, slides and camper tops in order to be put into service.

Three quotes were obtained for the lighting packages. Prologic was the lowest priced at \$10,896.46 per vehicle. Other bidders were Safety Elite Associates (\$23,514 per vehicle) and Tactical Fire (\$24,125 per vehicle).

Three quotes were obtained for camper tops and slide systems to go in up to six (6) of the trucks. FireLine was the lowest quote at \$10,573 per vehicle. Other quotes were Williams Fire Apparatus (\$16,722.22 per vehicle) and Smyrna Trucks (no response).

Utility Associates is the County's contracted vendor for the communications (internet) hardware bundle, referred to as Rockets and/or Riots that goes in Fire's response vehicles. The total cost is \$55,680 (\$3,480 per vehicle) and includes packages for the 7 trucks, 3 Expeditions, Rescue 9 service truck, and new engines arriving in December/January.

These items are being purchased with SPLOST funding.
