

SUBJECT:
**Mountain Park Road Drainage Improvement
Project - Construction.**

MEETING DATE:
June 4, 2024

SUBMITTED BY:
Jim Wilgus

SUGGESTED ACTION:

Consider approval to award a Standard Construction Agreement for construction of the Mountain Park Road Drainage Improvement Project to Advanced Road Construction, LLC, in the amount of \$286,140.00.

FACTS AND ISSUES:

Mountain Park Road is located in southeastern Cherokee County. Right-of-way ditch and pipe conveyances in the area are non-functional based on current engineering standards. The Cherokee County Engineering Department has received numerous complaints at or near 205 Mountain Park Road. Based on a final plat in the area, it appears there was a cross-drain beneath Mountain Park Road in this area, however, the pipe is not functional and cannot be located by Public Works. Recent home construction in the area has exacerbated drainage problems at this location.

The project will improve the drainage systems in the area.

Bids were received from nine (9) contractors.
