

Cherokee County, Georgia
Agenda Request

Item # 12.8

SUBJECT:

E-911 Motorola Vesta Cloud Based Services.

MEETING DATE:

November 19, 2024

SUBMITTED BY:

Tye Beavers

SUGGESTED ACTION:

Consider request from E-911 for the purchase of one year of Cloud Based Services for Motorola Vesta call handling in the total amount of \$69,295.02.

FACTS AND ISSUES:

The E-911 Department is requesting to subscribe to the Command Central Cloud Services to become fully Next Generation E-911. While installation of the ESInet is the architecture where the services will be used, the services must still subscribe to the cloud. This service will include video streaming, pictures, AI translation, and citizen input across the network.

The funding for this purchase will come from the E-911 FY2025 budget.
