

SUBJECT:

Acceptance of Boat Dock for Fire & Emergency Services.

MEETING DATE:

February 21, 2023

SUBMITTED BY:

Amanda Postelle

SUGGESTED ACTION:

Consider accepting the donation of a floating boat dock to be placed at Little River Marina for Fire & Emergency Services.

FACTS AND ISSUES:

The Fire Department's river rescue boat is stored at Little River Marina on Lake Allatoona. Fire received a generous offer for a floating dock to be donated to the department and placed at Little River Marina. The floating boat dock is valued at \$28,910.00 and will assist in the department's emergency responses on Lake Allatoona. Casey Custom Docks has offered to transport and set up the dock free of charge. The new dock would be a huge upgrade both in safety and size from the existing dock.
