

**Cherokee County, Georgia
Agenda Request**

Item # 11.6

SUBJECT:
**Call for Public Hearing - Revisions to
Floodplain Management and Flood Damage
Prevention Ordinance.**

MEETING DATE:
May 6, 2025

SUBMITTED BY:
Rhonda Hilliard

SUGGESTED ACTION:

Consider request for a public hearing to be held on July 15, 2025, to consider revisions to the Floodplain Management and Flood Damage Prevention Ordinance.

FACTS AND ISSUES:

Cherokee County's Floodplain Management and Flood Damage Prevention Ordinance is being revised to comply with Federal Emergency Management Agency (FEMA) Community Rating System (CRS) requirements. CRS is a voluntary incentive program that recognizes and encourages community floodplain management practices that exceed the minimum requirements of the National Flood Insurance Program (NFIP). Participation in CRS allows reduced flood insurance premium for County constituents.

CRS has reviewed the County's current ordinance and is requiring a minor update concerning manufactured home placement near flood hazard areas.
