

SUBJECT:

**Georgia Power Relocation Agreement - Shoal
Creek Road over Puckett Creek Improvements.**

MEETING DATE:

October 18, 2022

SUBMITTED BY:

Jim Wilgus

SUGGESTED ACTION:

Consider approval of a Utility Relocation Agreement with Georgia Power Company in the amount of \$72,047.00 for the relocation of facilities in conflict with the Shoal Creek Road over Puckett Creek Improvements project.

FACTS AND ISSUES:

Shoal Creek Road is an existing two-lane asphalt roadway that is located off of Waleska Road outside of the City of Canton.

The project includes improving the Shoal Creek Road stream crossing over Puckett Creek and improving the roadway geometry on Shoal Creek Road for a distance of approximately 1,100 feet west of the stream crossing. Design speed for the roadway will be 25 MPH. A typical Cherokee County roadway pavement section will be used.

In order to complete the construction of this project, overhead utilities poles along the corridor will need to be relocated. Per this agreement, Cherokee County will reimburse Georgia Power Company for the costs to perform the work in an amount no greater than \$72,047.00.
