

Cherokee County, Georgia
Agenda Request

Item # 12.9

SUBJECT:
Cyber Security Solutions - Email Protection.

MEETING DATE:
October 18, 2022

SUBMITTED BY:
David Eubanks

SUGGESTED ACTION:

Consider approving an extension of current Agreement with Email Integrity Solution, as required by the County's Cyber Security insurance carrier to meet the minimum underwriting requirements in the amount not to exceed \$55,886.00, as included in the FY 2023 budget.

FACTS AND ISSUES:

The County has used this existing vendor in both FY 2021 and FY 2022. IT is requesting to use Email Security Solution, a leader in the market, to continue its contract. In addition, this solution has tight integration with the endpoint detection and response threat hunting tool currently implemented to better overall protect the County from email threats and ransomware.
