

**SUBJECT:**

**Speed Hump Request - Stockwood Drive  
(Stockwood Estates Subdivision)**

**MEETING DATE:**

October 18, 2022

**SUBMITTED BY:**

Brett Buchanan

---

**SUGGESTED ACTION:**

Consideration of a petition for the installation of four (4) speed humps on Stockwood Drive in the Stockwood Estates Subdivision.

---

**FACTS AND ISSUES:**

The residents in the Stockwood Estates Subdivision have expressed concern about the speeds along the Stockwood Drive. The residents were provided the Neighborhood Traffic Control Program (NTCP) and requested four (4) speed humps along Stockwood Drive.

A speed study was performed along Stockwood Drive. The 85<sup>th</sup> percentile speed for the study was 35.9 mph. Due to this result, a 70% approval would be required during the petition process. A petition was submitted that showed a 70.6% approval from the residents within the Defined Service Area. There is no Homeowners Association for this subdivision, so no letter of support has been submitted.
