EXPLANATION:

The City is entering into an agreement with Forerunner to provide Floodplain management and emergency Management software.

Due to software components and unique software that allows government agency to monitor compliance with National Flood Insurance Program and extraction and validation of data from various elevation certificates, it was determined that Forerunner would qualify for a sole source. Purchasing advertised a sole source on DemandStar for 7 business days per the purchasing policy. The sole source closed with no additional submittals from any other companies. Therefore, the sole source was upheld, and the resulting contract is before Council.
