

Agenda Memorandum

Agenda Item - VIII.B

City Council Meeting
May 15, 2023

Subject: Baseball and Softball Ballfields Improvements - Community Group
Update - Lee Bollock

Prepared By: Justin Weiland, City Administration

Background of Issue:

Attached is an updated Powerpoint developed by the local community group working towards ballfield improvements. A group consisting of community members, baseball and softball association members, the school district and City officials have been consistently meeting to discuss and strategize improvements to the City ballfield facilities. The intent of the group is to categorize, breakdown and prioritize improvements. The group is identifying improvements for each field and attempting to break down budget numbers for each of the improvements. The group is seeking to provide this information to the City Council for budgeting and decision making purposes.

The City Council has heard from the representative from this group, Lee Bollock, at past meetings. Lee has prepared an updated powerpoint presentation and a spreadsheet reflecting today's projects, short term and long term goals. Lee will present the updated powerpoint and plans to engage in further discussions with the City Council.

Recommendation

No action needed for this item. Recommend engaging in further discussion with the baseball and softball group and Lee Bollock.
