

**Agenda Memorandum**

Agenda Item - IX.B

City Council Meeting  
June 3, 2024

**Subject:** Consider Purchase - 1973 C60 1,000 Gal Water Tank Truck

**Prepared By:** Novus Agenda, Finance

**Background of Issue:**

Public Works Director, Clarence Fjellanger would like the Council to consider the purchase of a 1,000 gal water tank truck with pump. The truck will be used for cleaning the WWTF as well as watering. Currently the City contracts with another company for the WWTF clean out and borrows a fire truck to do the watering. The advantage of owning our own truck would be the potential savings - no longer need to contract out the WWTF cleaning. It is also not certain that City will be able to use the Fire Department's truck in the future (once there is no longer a fireman on city staff).

**Truck Specs:**

1973 C 60 Gas engine

9148 Miles

1,000 Gal Tank

350 gpm Hale Pump

Honda Motor - 6x920 V Train

Director Fjellanger is requesting the City offer between \$7,000 and \$8,000 for the purchase of the tank. Director Fjellanger will be present at the meeting on Monday evening.

**Recommendation**

Consider purchase and price point to offer.
