

# Staff Report

## AGENDA ITEM REPORT

**DATE:** July 14, 2025

**SUBMITTED BY:** Rene Garcia, Administration

**ITEM TYPE:** Resolutions

**AGENDA SECTION:** CONSIDERATION OF AND ACTION ON

**SUBJECT:** Resolution R2025-33 Awarding Sanitary Sewer Rehabilitation Services for "Main Street and Lundy Avenue" Project to Ram Rod Utilities LLC, for \$201,971.13, and Authorizing the City Manager, or their Designee, to Execute All Related Documents and/or Amendments

**BACKGROUND:** Sanitary mains and manholes along Main Street and Lundy Avenue (between Mayfield Avenue and East Calhoun Street and between Merchant Street and Market Street) have a history of malfunction and are subject to imminent failure; consequently, this system has been identified as high priority for rehabilitation. The following rehabilitation objectives must be performed:

- 1645 LF sanitary pipe bursting of 6" clay and concrete mains to 8" HDPE DR19
- Four (4) 4' manhole rehabilitations
- One (1) pre-construction and one (1) post construction camera inspections
- Fifteen (15) 4" SDR 26 service connections
- Five (5) road restorations and bypass pumping

Staff sought out cooperative pricing construction proposals via TIPS (The Interlocal Purchasing System) and received one proposal from Ram Rod Utilities LLC for \$201,971.13.

Fiscal Impact: The 2024 Certificates of Obligation issued for S. Wharton, N. Wharton, and Town and Country projects totaled \$8,583,650. With total projected costs of \$7,086,734.37 (including bids and current change orders), a remaining balance of \$1,478,265.63 is available and will be used to fund this sewer project.

Professional engineering services for all three sanitary sewer projects on this agenda, including, "Main Street/Lundy Avenue", "West Norris Street/Bunton Drive" and "North Mechanic Street/Washington Street," totals \$49,900.00, which is less than the \$50,000.00 threshold required for Council approval. The Agreement for Professional Services from Urban Engineering which encompasses

all three projects is attached for reference.

**SUGGESTED ACTION:**

Staff recommends approval of Resolution R2025-33, awarding Ram Rod Utilities LLC with the sanitary sewer rehabilitation of "Main Street and Lundy Avenue".
