AGENDA ITEM REPORT

DATE: September 8, 2025

SUBMITTED BY: Garret Bubela, Emergency Medical Services

ITEM TYPE: Purchase/Financing

AGENDA SECTION: CONSIDERATION OF AND ACTION ON

SUBJECT: Resolution R2025-45 Authorizing the Purchase of Five (5) Hamilton T1 Ventilators with Accessories and a Five-Year Extended Service Plan from Hamilton Medical, and Authorizing the City Manager to Execute All Related Documents

BACKGROUND: The El Campo EMS fleet currently utilizes ventilators that are limited in functionality compared to modern options. To maintain high-quality patient care, staff recommends replacing current units with Hamilton T1 ventilators.

The Hamilton T1 is a transport-capable ventilator with greater clinical capabilities and expanded features compared to the City's current ventilators. In addition, the device is designed to be easier for providers to use in the field, improving efficiency in critical situations. This standardization across the EMS fleet will also simplify training, maintenance, and long-term support.

City staff obtained pricing directly from Hamilton Medical, which includes the purchase of five (5) ventilators with accessories and a five-year extended service plan. This will ensure coverage for maintenance, repairs, and software updates through Fiscal Year 2030. Hamilton did compare pricing against the pricing available through cooperative purchasing agreements, and the already discounted pricing direct from Hamilton was the best priced.

Fiscal Impact

- FY25 (Acquisition Cost): \$82,500 (five ventilators with accessories) will be funded through EMS billing revenue exceeding budgeted projections.
- FY26–FY30 (Extended Service Plan): \$10,600 annually (FY26 is already included with the proposed EMS budget)

SUGGESTED ACTION: Approve Resolution R2025-45 Approving the Purchase of Hamilton T1 Ventilators with Accessories and Extended Service Plan
