

CITY OF KINGMAN COMMUNICATION TO COUNCIL

TO: Honorable Mayor and City Council

FROM: Robert Petrillo

MEETING DATE: January 6, 2026

AGENDA SUBJECT: Approvals of Award of Bid 2025-IFB-038, Airway Avenue and Flying Fortress Parkway Pre-Cast Box Culverts Agreement and a One-Time Interfund Transfer from the Capital Projects Fund to the I-11 E. Kingman Connection Project Fund

SUMMARY:

This contract agreement is to purchase pre-cast box culverts for the City's section of the Flying Fortress Parkway's Change of Access (COA) agreement for the Traffic Interchange (TI) currently being constructed. Due to the completion of the TI currently scheduled for late Summer 2026, the connection to Airway Avenue will need to be completed at that time. To meet this deadline and expedite the construction, procurement was completed for the pre-cast box culverts needed, opposed to pour in place once under contract for the construction of this project.

The costs associated with this connection, including the pre-cast box culverts, will be funded with debt. However, debt has yet to be issued for the project. In order to cover the pre-cast box culverts' cost at this time, a one-time transfer from the Capital Projects Fund to the I-11 E. Kingman Connection Project Fund in the amount of \$1,961,213.50 (plus tax) is necessary. Once debt is issued, the Capital Projects Fund will be reimbursed in full.

For additional information, a formal solicitation was issued for the culverts. The only bidder was Forterra Pipe & Precast, LLC DBA Rinker Materials who met all of the requirements for the solicitation.

FISCAL IMPACT:

There will be an initial fiscal impact of \$1,961,213.50, plus tax, to the Capital Projects Fund. Once debt is issued for the entire project, the Capital Projects Fund will be reimbursed and the I-11 E. Kingman Connection Project Fund will be impacted.

STAFF RECOMMENDATION:

Staff recommends award of the contract to Forterra Pipe & Precast, LLC DBA Rinker Materials for the sum of \$1,961,213.50, plus tax, to expedite the construction schedule for the

City's section of the Flying Fortress Parkway Traffic Interchange project and approving a one-time interfund transfer from the Capital Projects Fund to the I-11 E. Kingman Connection Project Fund.

SUGGESTED MOTION:

Move to award the contract to Forterra Pipe & Precast, LLC DBA Rinker Materials for the sum of \$1,961,213.50, plus tax, to expedite the construction schedule for the City's section of the Flying Fortress Parkway Traffic Interchange project. Move to approve a one-time interfund transfer from the Capital Projects Fund to the I-11 E. Kingman Connection Project Fund.
