

CITY OF KINGMAN COMMUNICATION TO COUNCIL

TO: Honorable Mayor and City Council

FROM: Robert Petrillo

MEETING DATE: August 4, 2026

AGENDA SUBJECT: Approval of Amendment for Additional Post Design Services for the Main Tanks Transmission Main Phase 2B Project

SUMMARY:

The Main Tanks Transmission Main project is intended to provide a dedicated source of water from the Castlerock Booster Station to the Main Tanks site. Nearing the final design stages, the project was broken into multiple Phases, Phase 2A and Phase 2B. Post Design Services were provided during the Phase 2A buildout of the project, leaving a reduced amount of Post Design Services Allowance for the Phase 2B buildout.

This amendment provides additional funds for the Post Design Services Allowance to support Phase 2B, which has recently begun construction and will require continued post design services throughout construction. This amendment maintains the original scope of work as defined in the original agreement while ensuring sufficient funding is available to support the project through construction.

This project was approved in the FY2026-27 Adopted Budget and 5-Year Capital Improvement Plan.

FISCAL IMPACT:

The proposed amendment total of \$5,000 will be funded from the Water Expansion Fund.

STAFF RECOMMENDATION:

Staff recommends approval.

SUGGESTED MOTION:

Move to approve the amendment for Additional Post Design Services for Main Tanks Transmission Main Phase 2B for the sum of \$5,000.00.
