SUMMARY:

Planning is under way for the 2026 Kingman Route 66 Street Drags. As part of the event the organizer is required to provide liability insurance. This item is to review the event and proposed insurance coverage and provide direction to staff. Additionally the City may acquire additional insurance coverage if so desired. Staff is seeking Council's direction regarding the minimum coverage amounts for this event.

FISCAL IMPACT:

Events like this are hard to determine definitively how much revenues are generated through sales taxes collected due of the event. It is estimated that based on a projected increase in hotels and restaurants this event could generate roughly \$15k in tax revenues over the course of the weekend. There are additional indirect revenues including additional retail sales in town that are even harder to track. The costs to the City from this event include additional public safety and sanitation coverage during the weekend.
