

CITY OF KINGMAN COMMUNICATION TO COUNCIL

TO: Honorable Mayor and City Council

FROM: Keelan Yarbrough

MEETING DATE: October 21, 2025

AGENDA SUBJECT: Authorization to Purchase Sensus Smart Meters for Continued Automated Meter Reading Implementation

SUMMARY:

This request is for Council consideration and approval to purchase equipment specific to the Water Division's Automated Meter Reading (AMR) infrastructure. The proposed equipment is necessary to continue implementing the City's "smart meter" system, which enhances system efficiency, accuracy, and resiliency. The City of Kingman's water system currently operates with Sensus water meters, meter data collection units, and associated software. This hardware and software are fully integrated with the City's utility billing system and continue to be supported by the vendor. The proposed purchase would utilize Sole Source procurement through Core and Main to obtain Sensus smart meters for continued expansion and integration of the AMR system. Funding for this purchase was approved as part of the FY 2025–2026 budget adoption process. The equipment purchase under consideration will support both new development and the replacement of existing meters that have reached the end of their useful life.

FISCAL IMPACT:

There will be a fiscal impact of \$349,341.69 to the Water Capital Renewal Fund.

STAFF RECOMMENDATION:

Staff recommends Approval.

SUGGESTED MOTION:

Motion to approve the purchase of automated meter reading equipment.
