

CITY OF KINGMAN COMMUNICATION TO COUNCIL

TO: Honorable Mayor and City Council

FROM: Jack Plaunty

MEETING DATE: April 21, 2026

AGENDA SUBJECT: Authorization to Award a Contract for Traffic Signal
Construction at the Intersection of Airway Avenue and Burbank
Street

SUMMARY:

This item is for consideration and approval of a construction contract for the installation of a new traffic signal at the intersection of Airway Avenue and Burbank Street.

This intersection was evaluated as part of a broader citywide project to identify where traffic control improvements may be warranted. Based on the engineering analysis conducted at that time, this location was the only intersection that met the traffic signal warrants set forth in the Manual on Uniform Traffic Control Devices (MUTCD).

The proposed signal is intended to improve overall traffic operations and enhance safety for motorists and pedestrians. The project scope includes the installation of signal equipment and associated roadway improvements. This includes widening the roadway section on Burbank south of Airway to accommodate a center turn lane to improve traffic flow and congestion around the schools located on Burbank.

This work is anticipated to be completed during the summer break to minimize impact on school traffic.

This project was approved in the FY2025–26 Adopted Budget and 5-Year Capital Improvement Plan with a budget of \$700,000. The proposed cost of \$976,310.70 exceeds the approved amount, and the overage will be funded using available budget capacity from the Traffic Interchange Landscaping project.

FISCAL IMPACT:

The Fiscal Impact is \$976,310.70 and will be paid from the Capital Projects Fund.

STAFF RECOMMENDATION:

Staff Recommends Approval

SUGGESTED MOTION:

Motion to authorize construction of a new traffic signal at the intersection of Burbank Street and Airway Avenue.
