

CITY OF KINGMAN COMMUNICATION TO COUNCIL

TO: Honorable Mayor and City Council

FROM: Mike Garmon

MEETING DATE: September 16, 2025

AGENDA SUBJECT: Agreement for Engineering Services for Intersection Improvements at Hualapai Mountain Road and Eastern Street
ENG25-0061

SUMMARY:

A February 2025 Traffic Impact Analysis prepared by Greenlight Traffic Engineering indicates the need for a traffic signal at the intersection of Hualapai Mountain Road and Eastern Street within the next six years. Also warranted in the analysis are a westbound right turn lane from Hualapai Mountain Road onto Eastern Street and a southbound left turn lane from Eastern Street onto Hualapai Mountain Road.

Huitt-Zollars, Inc. has successfully provided street improvement engineering services for the City on a recent project. At staff's request, Huitt-Zollars, Inc. provided a cost proposal for the traffic signal design and intersection improvements at Hualapai Mountain Road and Eastern Street for the amount of \$85,100. Staff recommends approval.

This project was not budgeted in the FY2025-26 Adopted Budget and 5-Year Capital Improvement Plan, but given the findings of the traffic study and the fact that there is sufficient budget capacity within the Capital Projects Fund to cover the project's costs, staff recommends moving forward.

FISCAL IMPACT:

There will be a fiscal impact of \$85,100 to the Capital Projects Fund.

STAFF RECOMMENDATION:

Staff recommends approval of the agreement for engineering services for intersection improvements at Hualapai Mountain Road and Eastern Street, ENG25-0061.

SUGGESTED MOTION:

Approve the agreement for engineering services for intersection improvements at Hualapai Mountain Road and Easter Street, ENG25-0061.
