POULSBO CITY COUNCIL AGENDA SUMMARY

BUSINESS AGENDA ITEM NO. 9.a
MEETING DATE: October 1, 2025

AGENDA ITEM	Puget Sound Energy Night Work Requests
EXHIBITS	PSE Night Work Request
STAFFED BY	Washburn
ESTIMATED TIME	5 mins

SUMMARY STATEMENT

Puget Sound Energy is replacing two power poles in the vicinity of the intersection of Finn Hill Road and Viking Road, and replacing one Junction Box at Viking and Vetter Rd. This work will be completed under the Public Property Construction Permits E-08-25-25-01, and E-06-26-25-01.

PMC 15.32.010 requires "Public works projects and other projects within the public rights-of-way for which the city council determines that the public benefit of night-time construction outweighs the short-term impacts of such construction."

Viking way sees large amounts of traffic, especially during peak commuter hours. By completing the work at night, there will be minimal impacts to traffic flow. Puget Sound Energy has proposed a traffic control plan that meets the MUTCD requirements for traffic control and flagging.

It is recommended that night work be allowed for this work, as the impact to traffic by completing this project during the day will far outweigh any impacts night work could potentially cause. Night work is anticipated to last for 4 nights for power pole replacement, and 1 night for junction box replacement.
