

REPORT TO THE BOARD OF MAYOR & ALDERMEN

DATE: July 27, 2026

FROM: Clay Ticer, Assistant Public Works Director

SUBJECT: Street Selection List for Fiscal Year 2027 Repaving Program

INTRODUCTION:

The purpose of this agenda item is to present for approval, the list of streets to be addressed during the FY27 street repaving project.

BACKGROUND:

The annual paving program involves patching, leveling and asphalt overlay of various Town streets. A portion of the State Street Aid funds were approved in the FY27 budget for this project. The available State Street Aid funds for this year's project are \$1,037,741.00. The available General Fund (Streets and Drainage) funds for this project are \$3,001,759.00. The total available funding for the FY26 paving project is \$4,039,500.00.

DISCUSSION:

There are many factors Public Works staff consider when compiling a list of streets for the annual paving project. These factors include maintenance cost to a roadway, citizen's requests or complaints, age, and condition. The project manager also performs an annual inspection of all Town streets to compile the list.

A list of the selected streets recommended for resurfacing has been attached for your review. The attached street list represents the top priorities. There is no guarantee all the areas listed will be resurfaced once the bids are received. Public Works currently maintains 740 lane miles of streets. The proposed paving list of streets totals 32.5 lane miles or 4.5 percent of our total number of lane miles.

BUDGET IMPACT:

The FY27 Adopted Budget includes \$4,039,500.00 for annual paving. A contract for the paving work will be brought before the Mayor and Board at a later date.
