

Council Meeting: April 23, 2026	Prepared By: Deb Johnson, City Clerk
Topic: Ordinance 2026-560 Amending the City Code	Action Required: Adoption

Summary

During the codification process with Municode (online codification program), it was discovered that Title XII was not included in the City Code. Currently, the Code progresses numerically from Title XI, Business Regulations, to Title XIII, Reserved, effectively omitting a properly designated Title XII. Staff has drafted an ordinance amendment that would improve organization and structure of the City Code.

The proposed ordinance amendments would:

- Establish Title XII, *Business Regulations Continued*, and insert it into the Code in its proper numerical sequence.
- Reassign Chapter 120—*Peddlers, Solicitors, Transient Merchants, and Door-to-Door Advocates*—from Title XI to the newly established Title XII, *Business Regulations Continued*. The text and numbering of Chapter 120 will remain unchanged, and all references within the City Code will be updated to reflect its placement within Title XII.

The proposed ordinance has been reviewed by the City Attorney.

Recommendation

Staff recommends adopting Ordinance 2026-560, which includes amendments intended to improve the organization and logical structure of the City Code.

Council Action

Adopt Ordinance 2026-560 Amending the City Code
