

Council Meeting: July 9, 2026	Prepared By: Lauren Letsche, Engineering Development Superintendent,
Topic: Letter of Support - Hennepin County CSAH 19 and CR 30 Multimodal Safety Improvements	Action Required: Authorization

Summary

Hennepin County is submitting an application to the Federal Highway Administrations Highway Safety Improvement Program (HSIP) a core Federal Aid Program with the purpose to achieve a significant reduction in traffic fatalities and serious injuries on public roads.

The county has requested a letter of support for this application. The County specifically asks that we acknowledge that the city is aware of the project and understands that the city will likely be required to cost participate in this project as outlined in the county's Cost Participation and Maintenance policies.

Specific details regarding cost participation and maintenance responsibilities of project elements are anticipated to be determined during the design process as project development is advanced. This project would modify the intersection in some format yet to be determined after further review and public engagement.

Staff has drafted a letter of support for the project for Council's review and consideration.

Financial/Budget

Hennepin County's Cost Participation Policy states that cities are responsible for 50% of the cost of the project that is in their city. Local cost participation would be offset by federal or other eligible grant reimbursements.

Options

1. Authorize staff to submit a letter of support of grant applications for improvements to the CSAH 19 and CR 30 intersection.
2. Modify letter of support.
3. Decline.

Recommendation

Authorize staff to submit a letter of support for a grant application for improvements to the CSAH 19 and CR 30 intersection.

Council Action

Consider a motion to authorize staff to submit a letter of support for a grant application for improvements to the CSAH 19 & CR 30 intersection.
