The San Juan Bautista City Council adopted Resolution 2023-71 approving the "Notice of Intention to Amend the General Plan by Accepting Urban Growth Boundary Ad Hoc Committee Recommended Sphere of Influence, Urban Growth Boundary, and Planning Area" which created a new Sphere of Influence, Urban Growth Boundary and Planning Area attached as Exhibit A. Establishment of a "Planning Area" (previously referred to as the "Area of Concern") wherein City maintains significant influence, is vital to the protection of the historical character and setting of the City, which underpins the City's cultural and economic well-being and community values.

It is the intention of the Parties now to memorialize the influence to be maintained by the City with regard to development of properties within the County's jurisdictional boundaries, but which are also within the City's "Planning Area" as herein set forth and recognized. The City of San Juan Bautista City Council adopted Resolution 2024-40.

In 2020, the San Juan City Council created an Urban Growth Boundary Committee with an eye towards replacing the town's growth boundary which had existed historically, but which was not then present. During that process, it was discovered that the city also lacked an updated Sphere of Influence (SOI). A new SOI was therefore added to the scope.

The work of the UGB Committee resulted in a resolution by the council to adopt a new UGB and SOI which are both coterminous with city limits. This action was taken to *encourage* "infill" development, and *discourage* conversion of the prime ag and grazing lands which surround the "City of History."

Having established a boundary for growth as well as a reduced sphere both of which are right on the city limit lines, the question therefore became: What happens on the other side of the lines, which is county ground?

Recognizing and deferring completely to the jurisdictional authority of the county, as well as their processes, San Juan asked to simply be informed when a project is proposed around them, to learn about the proposal first hand, and then to provide its feedback to the county—all in the hope that its position will be taken into account during the county process which will follow.
